Heart Fund Volunteers Needed

An appeal to Appomattox residents was issued today by Thomas L. Matthews chairman of the Appomattox Heart Fund campaign, for volunteers to aid in the local drive which begins Feb. 1st.

Matthews said volunteers are needed to call on friends and neighbors with information on reducing the risk of heart disease and how to recognize the early warning signs of heart attack and stroke. Volunteers also will collect contributions for increased research, education and community programs to help fight the nation's leading cause of death.

"More than 29 million Americans have some form of heart and blood vessel diseases. This averages out to one in every eight Americans. Deaths from these diseases amount to over a million a year - - more than from all other causes of death combined," the chairman said.

Matthews asked Appomattox residents to help bring these important messages to the public by volunteering some of their time to help save lives.

Volunteers may register in person at Heart Fund headquarters, Bennett T. Matthews, Inc., Atwood St., or by calling 352-5363.

Students Set To Donate Blood Tuesday

Donating a unit of blood is not quite new to these 17 and 18 year old students who are members of the Senior Class at Appomattox County High School. They have given blood before and are planning to donate again when the Red Cross Bloodmobile makes its fourth visit of the fiscal year to Appomattox on Tuesday from noon until 6 p.m. at Liberty Baptist Church. They realize the importance of donating a unit of blood and are urging their friends to come out Tuesday and donate blood, too, as well as the adults who have set the example. 18 year olds may donate without parental consent, however, if you are only 17, you must have your parent or guardian sign for you . . . cards are available upon request according to Mrs. Lucy Harvey, Chairman of the Blood Program for the county, working with the Junior Woman's Club on this worthwhile project.

Ladies from Mount Comfort United Methodist Church will be in charge of the canteen for the day. Donors will receive a quart of Pepsi FREE from Pepsi Cola Company and donors will also receive, compliments of the DAIRY QUEEN, a FREE hamburger if they donate blood or if they take the necessary test to see if they are able to donate blood.

A total of 101 units will be needed on Tuesday in order for Appomattox County to remain 100% of its quota.

Let's get out Tuesday and donate a unit of blood!

Heart Disease Major Expense For Business & Industry

"Heart and blood vessel diseases cost the nation an estimated $20 billion annually, including lost income and payments for medical care," Thomas L. Matthews, Heart Fund chairman for Appomattox said today.

"And," he added, "these diseases cost business and industry an estimated loss of 52 million man-days of production a year.

"No businessman can afford to overlook these economic facts about heart and blood vessel diseases," Matthews said. "Men in the 45 to 64 age group are industry's most valuable executives and employees. Deaths in this age group cause a significant loss of key management skills, and production 'know-how.' Besides this, there is the cost of training replacement personnel."

Heart and blood vessel diseases kill more than one million persons a year. This adds up to more deaths than from all other causes combined. Heart attack alone kills more than 680,000 persons every year, Matthews noted.

The Piedmont Heart Association is conducting its annual fund drive in February, which has been designated American Heart Month. Matthews said that area firms will be asked to cooperate in the fight against the nation's major health problem by distributing educational materials and information about community programs sponsored by the Piedmont Heart Association.

The convention held in the Palmer House Hotel was attended by approximately 600 Ruritans and 400 wives and children from 32 states. The opening session was a vesper service on Sunday night.

The Pooles traveled to Chicago on Thursday, January 23. A school for District Governors was conducted on Friday and Saturday. The convention concluded with a banquet and entertainment on Tuesday night. Officers were installed prior to the entertainment.

The Statler Brothers, natives of Staunton, Virginia, sang many of their hit songs and reminisced about the good times they had when growing up.

Number Of Farms Decline

Total farms in Virginia declined from 74,000 in 1973 to 73,000 in 1974, according to James R. Ford, Jr., Chairman of the Appomattox County ASC Committee.

Nationally, the number of farms declined by approximately .5 percent from 1973 to 1974, said Mr. Ford. This compares with declines of .9 percent in 1973 and 1.2 percent in 1972 and shows a slowing in the rate of decline.

A report issued recently by the U.S. Department of Agriculture's Statistical Reporting Service (SRS), indicates that total land in farms declined again in 1974, this time by approximately 1.7 million acres.

Total farms at the end of 1974 were placed at 2,830,490, down from 2,843,890 in 1973. Total U.S. land in farms was put at approximately 1.09 billion acres, Mr. Ford said. He also added that the trend towards larger farms was also continued in 1974. Nationally, the average size of farms was 384 acres, an increase of one acre over 1973 and 52 acres larger than 1964.

Preliminary SRS estimates indicate that 1975 will see a continuing move toward fewer, but larger U.S. farms.
